

Special issue on

Advances in Data Envelopment Analysis

Guest editor: Ali Emrouznejad

Aston Business School, Aston University, Birmingham, UK

For this special volume, we expect original research papers of high quality providing theoretical and/or practical application of Data Envelopment Analysis. Of particular interest are contributions to the theory and/or successful applications of productivity and efficiency analysis in the real world, for example in banking, healthcare, education, transportation, and so on.

For this volume we expect to include papers that are beyond the standard CCR and BCC models. Both theoretical and practical papers using advanced models in Data Envelopment Analysis are considered.

Manuscript Preparation

Please refer to the Journal Information and Author Guidelines for additional information on manuscript preparation at <http://www.springer.com/journal/10479>

All manuscripts should be submitted online at <http://anor.edmgr.com/>, when submitting the manuscript please select the article type "SI: Adv. in Data Envelopment Analysis"

IMPORTANT DATES

31 October 2011	→	Submission Deadline (early submission recommended, referee process starts once the paper received, accepted papers will be published individually online as they are accepted)
31 March 2012	→	Notification of status & acceptance of paper
31 July 2012	→	Revised manuscripts
31 December 2012	→	Final version of paper
2013	→	Anticipated print publication

Notes for Prospective Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere.

Reviewing

Submitted papers will be peer-reviewed in the same manner as any other submission to a leading international journal. The major acceptance criterion for a submission is the quality and originality of the contribution.
