Call for Papers:

This is a call for a selection of the best papers presented at the *Third Madrid Conference on Queueing Theory* (MCQT’10) to be held in Toledo during June 28 – July 1, 2010.

<http://www.mat.ucm.es/~mcqt/confe10/conf10.html>

The Madrid Conference on Queueing Theory (MCQT) aims to be a meeting place where scientists and technicians in the field will find a discussion forum to promote research, encourage interaction and exchange ideas. The conference is open to all trends including the development of the theory, methodology advances, computational aspects and applications of Queueing Theory.

Papers submitted for this special volume should make a significant contribution to the topic “**Computational Methods and Applications in Queueing Theory**”. All papers will be refereed according to the high standards of the *Annals of Operations Research*. Accepted papers will be published on line individually, prior to the print publication of the entire volume. For more information regarding the preparation of the manuscript and the online submission, please visit the journal website at

<http://www.editorialmanager.com/anor/>

When submitting, please select “article type”: “S.I.: MCQT’10 Computational Methods ...”.

Submission deadline: 20 September 2010
