Call for Papers

Annals of Operations Research
Special Issue: New Trends in Multiobjective Optimization Techniques and Applications

The aim of this special issue is to publish substantial extensions of selected papers presented during the 12th International Conference on Multiple Objective Programming and Goal Programming (MOPGP'17: http://mopgp.org/) to be held from October 30-31, 2017, Metz, France. Also, the special issue considers papers that are not presented during the conference. We seek original and unpublished work not currently under consideration at any other journal.

The main topics of interest
The topics include, but are not limited to, all areas of Multiple Objective Optimization (MOP), in particular those addressing innovative methodological aspects and real applications.

- Discrete and combinatorial MOP
- Approximation algorithms for MOP
- Mathematical programming for MOP
- Goal programming
- Stochastic MOP
- Fuzzy MOP
- Dynamic MOP
- Interactive MOP methods

The scientific quality of the contributions is the main criterion in the selection process.

Instructions for authors can be found at:
http://www.springer.com/business/operations+research/journal/10479

Authors should submit a cover letter and a manuscript by 30 June 2018 via the Journal's online submission site. Manuscripts submitted after the deadline may not be considered for the special issue and may be transferred to a regular issue.

Please see the Author Instructions on the web site if you have not yet submitted a paper through Springer's web-based system, Editorial Manager. Be sure to note when leaving a comment that your work is intended for the special issue and to select the article type "S.I.: MOPGP 2017"

Papers will be subject to a strict review process managed by the Guest Editors and accepted papers will be published online individually, before print publication.

Guest Editors:
Prof. Imed KACEM, Université de Lorraine, France (imed.kacem@univ-lorraine.fr)
Prof. Davide LA TORRE, University of Milan, Italy (davide.latorre@unimi.it)
Dr. Hatem MASRI, University of Bahrain, Kingdom of Bahrain (hmasri@uob.edu.bh)
