- Costing in humanitarian logistics and supply chains
- Vehicle routing problems in DRO
- Application of Evolutionary Algorithms (EA)

Instructions for authors can be found at:

<http://www.springer.com/business/operations+research/journal/10479>

Authors should submit a cover letter and a manuscript by date via the Journal's online submission site. Manuscripts submitted after the deadline may not be considered for the special volume and may be transferred to a regular volume.

Please see the Author Instructions on the web site if you have not yet submitted a paper through Springer's web-based system, *Editorial Manager*. Be sure to note when leaving a comment that your work is intended for the special volume and to select the article type " S.I. Application of OR in Disaster Relief Operations, Part II".

Papers will be subject to a strict review process managed by the Guest Editors and accepted papers will be published online individually, before print publication.

Guest Editors:

1. Dr. Rameshwar Dubey, Montpellier Research in Management, Montpellier Business School, France

2. Professor Angappa Gunasekaran, Charlton College of Business, University of Massachusetts Dartmouth

3. Professor Thanos Papadopoulos, Kent Business School, University of Kent

4. Professor David ROUBAUD, Montpellier Business School, France
