
Call for Papers

Annals of Operations Research Special Issue: Essays in Game Theory in Tribute to Francesc Carreras

Submissions in Game Theoretical Models and Applications are welcome for this special issue to appear in *Annals of Operations Research*. The deadline for submissions is 25 May 2020.

The special issue invites submissions in all areas covered by the European Meetings on Game Theory (SING), including, but not limited to:

- Cooperative games and their applications
- Mechanism design
- Networks
- Dynamic games
- Evolutionary games
- Stochastic games
- Voting and power indices
- Auctions
- Bargaining
- Learning and experimentation in games
- Computational game theory
- Game theory applications in fields such as: management, energy, health policy, industrial organization, and others

In particular, we encourage participants of the 15th European Meeting on Game Theory (SING 15) to submit full, extended versions of their presented papers. However, other relevant papers are welcome. Contributions arising from papers given at a conference should be substantially extended, and should cite the conference paper where appropriate.

Instructions for authors can be found at:

<https://www.springer.com/journal/10479/submission-guidelines>

Authors should submit a cover letter and a manuscript by 25 May 2020 via the journal's online submission site. Manuscripts submitted after the deadline may not be considered for the special issue and may be transferred to a regular issue.

Please see the Author Instructions on the web site, if you have not yet submitted a paper through Springer's web-based system, Editorial Manager. When prompted, please select the special issue's title, **Essays in Game Theory in Tribute to Francesc Carreras**, to ensure that it will be reviewed for this special issue.

Papers will be subject to a strict review process managed by the Guest Editors, and accepted papers will be published online individually, before print publication.
