Call for Papers

*Annals of Operations Research*

Special Volume on
Logistics, Optimization, and Transportation

**Overview**

This special volume collects papers describing cutting edge research on optimization methods and models for logistics and transportation. Papers involving theory, methods, algorithms, and case studies are sought.

**Topics**

Papers are sought on all areas of optimization applied to logistics and transportation, including, but not limited to the following:

- TSP and all variants
- VRP and all variants
- Combining inventory and transportation
- Multi-modal transportation
- Combining manufacturing and transportation
- Transportation choice modeling
- Stochastic programming
- Meta-heuristics
- Matheuristics
- Exact methods
Procedures

High quality papers are sought from all researchers in these fields, particularly those who participate in the LOT conference held in Molde, Norway, to honor the memory of Professor Arne Løkketangen on September 1 and September 2, 2014. All papers will be rigorously refereed by experts selected by the editors. The submission deadline is December 31, 2014. **Instructions for authors can be found at:**

http://www.springer.com/business/operations+research/journal/10479

Authors should submit a cover letter and a manuscript by December 31, 2014, via the journal’s online submission site. Manuscripts submitted after the deadline may not be considered for the special volume and may be transferred to a regular volume.

Please see the Author Instructions on the web site if you have not yet submitted a paper through Springer’s web-based system, Editorial Manager. Be sure to note when leaving a comment that your work is intended for the special volume and select the article type **SI: LOT.**

Guest Editors

- Lars M. Hvattum
  
  Professor
  
  Norwegian University of Science and Technology
  
  lars.m.hvattum@iot.ntnu.no

- Geir Hasle
  
  Chief Research Scientist
  
  SINTEF Department of Applied Mathematics
