
Call for Papers
Annals of Operations Research
Special Volume:
Paths, Pivots, and Practice: The Power of Optimization

This is a call for papers that make a significant contribution to the theory or practice of optimization. It is open to all optimization researchers. We especially encourage the participants of the conference “Paths, Pivots, and Practice: The Power of Optimization, Montréal, Québec, June 11-13, 2015” to submit full versions of their presented papers.

Topics of particular interest include:

- Linear and conic optimization
- Combinatorial optimization
- Nonlinear optimization
- Algorithmic, geometric, and combinatorial aspects of optimization

Instructions for authors can be found at:

<http://www.springer.com/business/operations+research/journal/10479>

Authors should submit a cover letter and a manuscript by **March 31, 2016**, via the Journal’s online submission site. Manuscripts submitted after the deadline may not be considered for the special volume and may be transferred to a regular volume.

Please see the Author Instructions on the web site if you have not yet submitted a paper through Springer’s web-based system, *Editorial Manager*. Be sure to note when leaving a comment that your work is intended for the special volume and to select the article type "**S.I.: Terlaky60**".

Papers will undergo a strict review process managed by the Guest Editors and accepted papers will be published online individually before print publication.

Guest Editors:

Miguel Anjos, Polytechnique Montreal
Antoine Deza, McMaster University
