**Call for Papers**  
***Annals of Operations Research***  
**Special Issue: Recent Advances in Multiobjective Optimization**

---

The aim of this special issue is to publish extended versions of selected papers presented during the 13<sup>th</sup> International Conference on Multiple Objective Programming and Goal Programming (MOPGP'19: <http://mopgp.org/>) held from October 28-31, 2018, in Marrakech, Morocco. The Special Issue will consider papers that were not presented during the conference. We seek original and unpublished work not currently under consideration at any other journal.

**The main topics of interest :**

The topics include, but are not limited to, all areas of Multiple Objective Optimization (MOP), of particular interest are those addressing innovative methodological aspects and real applications:

- discrete and combinatorial MOP
- approximation algorithms for MOP
- mathematical programming for MOP
- goal programming
- stochastic MOP
- fuzzy MOP
- dynamic MOP
- interactive MOP methods

The scientific quality of the contributions is the main criterion in the selection process.

**Instructions for authors can be found at:**

<http://www.springer.com/business/operations+research/journal/10479>

Authors should submit a cover letter and a manuscript by **31 December 2019** via the Journal's online submission site. Manuscripts submitted after the deadline may not be considered for the special issue and may be transferred to a regular issue.

Please see the Author Instructions on the web site if you have not yet submitted a paper through Springer's web-based system, *Editorial Manager*. Be sure to submit for the special volume and to select the article type "**MOPGP2019**"

Papers will be subject to a strict review process managed by the Guest Editors and accepted papers will be published online individually, before print publication.
