**Call for Papers**

*Discrete Applied Mathematics*

**Special Issue:**

Combinatorial Optimization: Theory, Computation and Applications

This special issue will present recent advances in all areas of Combinatorial Optimization. The issue will be based on contributions presented at ECCO XXVII-CO 2014, (Munich, May 1-3, 2014), but the invitation to submit is extended to all ECCO and CO members.

The deadline for submission is **January 15, 2015**.

**Main topics of interest are (but not restricted to):**

- Approximation algorithms
- Exact algorithms
- Graphs and networks
- Heuristics
- Mathematical programming
- Metaheuristics
- Scheduling

All articles will be thoroughly refereed according to the high standards of *Discrete Applied Mathematics*.

The full papers must be submitted through the Elsevier Editorial System [http://ees.elsevier.com/dam/default.asp](http://ees.elsevier.com/dam/default.asp)

To ensure that all manuscripts are correctly identified for inclusion into the special issue the authors must select SI: ECCO-CO when they reach the “Article Type” step in the submission process.

For first-time users of Elsevier Editorial System, detailed instructions and tutorials for Authors and for Reviewers are available at:

Accepted papers will be published online individually, before print publication.

We are looking forward to receiving your contribution.

The Guest Editors,

Bo Chen  
Peter Gritzmann  
Silvano Martello
