**Call for Papers**  
***Discrete Applied Mathematics***  
**Special Issue: Fifth Workshop on Graph Classes, Optimization,  
and Width Parameters, Daejeon, South Korea, October 2011.**

---

We would like to invite you to submit a paper for publication in the Special Issue of *Discrete Applied Mathematics* dedicated to the topics of the recent workshop held in Daejeon, Korea, on October 27-29, 2011: Fifth Workshop on Graph Classes, Optimization, and Width Parameters (GROW2011, <http://mathsci.kaist.ac.kr/workshop/grow2011>).

The workshop was the most recent in the series initiated ten years ago in Barcelona (Bellaterra) and continued in Prague in 2005, in Eugene in 2007, and in Bergen in 2009. The first three meetings resulted in publication of special issues DAM 145(2), DAM 157(12), and DAM 158(7). The special issue of DAM dedicated to the fourth workshop is about to hit the presses and is expected appear in early 2012.

The authorship of papers submitted to this special issue is not limited to the participants of GROW2011. We hope to include other recent results in these research areas, as well. As in the case of previous issues, all submissions will be duly refereed with the usual high standards.

The submission deadline is **March 15, 2012**.

Please submit your paper through the web page: <http://ees.elsevier.com/dam/>

If you have used this system before, you can use your existing username and password for this submission; otherwise you will need to create an account.

After logging in, the first thing you are asked to do is to select an article type. Please be sure to select: "Special Issue: GROW 2011 Daejeon" from the list that appears for "Choose an article type". Then follow the instructions on the following pages. Please do not forget to approve the pdf file that is created at the end of your session.

Papers will be subject to a strict review process managed by the Guest Editors and accepted papers will be published online individually, before print publication.
