Call for Papers

Annals of Operations Research

Special Volume on

**Operations Research in the
Public Sector and Nonprofit Organizations**

Zilla Sinuany-Stern and H. David Sherman

We invite submission for a forthcoming special volume of the Annals of Operations Research (AOR) on Operations Research in the Public Sector and Nonprofit Organizations. These sectors have been growing substantially in the past decade and are expected to continue growing in light of the current economic crises. The types of organizations include: government on all levels, legal and law enforcement authorities, education, healthcare, art, charitable, social, international institutions, etc. The OR techniques may range from LP, NLP, DEA, decision analysis and AHP to goal programming, data mining, queuing, simulation, etc. We invite high quality research papers, innovative case studies, and state of the art and survey articles with OR applications to the public sector and nonprofit organizations.

If you intend to contribute to this special volume please contact the Guest Editors either by email or regular mail, as soon as possible. Sending an optional letter (or email) of intent specifying the area of contribution (type of organization and type of OR technique used) would greatly help the planning of this special volume.
The deadline for submission of the full paper is April 30, 2010.

Guest Editors:

Zilla Sinuany-Stern – zilla@bgu.ac.il
