**Call for Papers**  
***Annals of Operations Research***  
**Special Volume: *The Practice and Theory of Automated***  
***Timetabling***

---

The *Annals of Operations Research* seeks submissions for a special volume on *The Practice and Theory of Automated Timetabling*. The deadline for submission is 1<sup>st</sup> November 2010.

**The main topics of interest are:**

- Implementations
- Commercial Packages
- Complexity Issues
- Distributed Timetabling Systems
- Experiences
  
- Interactive versus Batch Timetabling
- Timetable Updating
- Standard Data Formats
- Relationship with Other Scheduling Problems
- Management versus Planning

**Instructions for authors can be found at:**

<http://www.springer.com/business/operations+research/journal/10479>

Authors should submit a cover letter and a manuscript by 1<sup>st</sup> November 2010 via the Journal's online submission site. Manuscripts submitted after the deadline may not be considered for the special volume and may be transferred to a regular volume.

Please see Author Instructions on the site if you have not yet submitted a paper through this web-based system. Be sure to note in the Manuscript Comment text that your work is intended for the special volume and to select the article type "***S.I.: PATAT 2010.***"

Papers will be subject to a strict review process managed by the Guest Editors and accepted papers will be published online individually, before print publication.

**Guest Editors:**

Barry McCollum, Queen's University Belfast, UK  
Edmund Burke, University of Nottingham, UK  
George White, University of Ottawa, Canada
