
Call for Papers
Annals of Operations Research
Special Volume: Stochastic Modeling and Optimization
Dedicated to the 80th Birthday of Professor András Prékopa

The *Annals of Operations Research* seeks submissions for a special volume on *Stochastic Modeling and Optimization* dedicated to the 80th birthday of **Professor András Prékopa**. The deadline for submission is May 15, 2010.

The main topics of interest are:

- stochastic optimization models
- models of risk
- structure and stability of optimization models under uncertainty
- numerical methods of stochastic optimization
- combinatorial techniques in optimization

Instructions for authors can be found at:

<http://www.springer.com/business/operations+research/journal/10479>

Authors should submit a cover letter and a manuscript by May 15, 2010, via the Journal's online submission site.

Please see Author Instructions on the site if you have not yet submitted a paper through this web-based system. Be sure to note in the Manuscript Comment text that your work is intended for the Special Issue and to select the article type "**SI: Prékopa: Stochastic Mod. & Opt.**"

Papers will be subject to a strict review process managed by the Guest Editors and accepted papers will be published online individually, before print publication.

Manuscripts submitted after the May 15, 2010, deadline may not be considered for the special volume.

Guest Editors:

Darinka Dentcheva¹, Andrzej Ruszczyński², and Tamás Szántai³
