
Call for Papers
Discrete Applied Mathematics

Special Issue: GO IX: Graphs and Optimization

This proposed special issue of *Discrete Applied Mathematics* (DAM) is devoted to the research in graph theory and optimization presented at the conference GO IX (Ninth International Colloquium on Graphs and Optimization), that was held during the summer 2014 in Sirmione, Italy.

All interested researchers are invited to contribute to this special issue. The topics should relate to the themes of the workshop : Graph Theory, Scheduling and Network Optimization Problems. Submissions of contributions not presented at the workshop are also welcome.

All articles will be thoroughly refereed according to the high standards of *Discrete Applied Mathematics*.

The full papers must be submitted through the Elsevier Editorial System (<http://ees.elsevier.com/dam>). When submitting your paper, be sure to specify that the paper is a contribution for the Special Issue of **GO IX**, so that your paper is assigned to the guest editors. Please see the Author Instructions on the site if you have not yet submitted a paper through this web-based system. Be sure to note that your work is intended for the Special Issue and to select the article type **SI: GO IX-2015**.

The deadline for submission is **August 31, 2015**.

Accepted papers will be published online individually, before print publication.

We are looking forward to receiving your contribution.

The Guest Editors,

Claudia Archetti
Luca Bertazzi
Martin Milanic
David Schindl
Sacha Varone
