

Vladimir A. Gurvich

Publication List

Last updated in February 2012

Notation

B - Boolean Functions,
CC - Complexity of Computations and Algorithms,
CP - Convex Programming and Convex Analysis,
DM - Data Mining and Artificial Intelligence,
Ga - Game Theory, CoGa - Combinatorial Games,
Ge - Geometry,
Gr - Graph Theory,
L - Lattice Theory,
M - Matroid Theory,
N - Number Theory,
P - Probability Theory,
S - Mathematical Geophysics and Computational Seismology,
T - Topology.

I. Papers in refereed journals; Extended abstracts 2000 -.

- (1) **1973** Ga and B : To theory of multi-step games;
J. Vychisl. matem. i matem. fiz., 13 (6) (1973) 1485-1500 (in Russian);
English transl. in USSR Computational Mathematics and Mathematical Physics
13 (6) (1973) 143-161.
- (2) 1974 Ga and B : Application of Boolean functions and contact schemes
in game theory. III-d USSR conference on game theory, Odessa, May 1974,
Abstract, p.167-168 (in Russian).
- (3) **1975** Ga and B : Solvability of positional games in pure strategies;
J. Vychisl. matem. i matem. fiz., 15 (2) (1975) 358-371 (in Russian).
English transl. in USSR Comput. Math. and Math. Phys. 15 (2) (1975) 74-87.
- (4) 1976 Ga and B :
Generating Nash equilibria in positional games by means of contact schemes;
Izvestiya Akademii Nauk SSSR, Tekhnicheskaya Kibernetika 2 (1976) 46-57
(in Russian). English transl. in Soviet J. of Computer and System Science
(formerly Engineering Cybernetics).
- (5) 1976 Ga and B : Determination of Nash equilibria in positional games
with imperfect information. Izvestiya Akademii Nauk SSSR, Tekhnicheskaya
Kibernetika 4 (1976) 22-28 (Russian). English transl. in Soviet J. of Computer
and System Science (formerly Engineering Cybernetics).
- (6) 1976 Ga and B : Applications of Boolean functions and contact schemes
in theory of the positional games; in "Contemporary directions of game theory".
E.Vilkas and A. Korbut, eds., "Mokslas", Vilnius (1976) 63-85 (in Russian).

(7) 1976 Ga, B, and Gr : Positional games, read-once Boolean functions and chromatic graphs. 22-nd Scientific Conference of Moscow Institute of Physics and Technology, Applied Mathematics, Abstract, p.122-125 (in Russian).

(8) 1977 Ga, B and Gr : On repetition-free Boolean functions, Uspehi Mat. Nauk (Russian Math. Surveys, Communications of Moscow Math. Society) 32 (1) (1977) 183–184 (in Russian).

(9) 1977 Ga : Reconcilable sets of coalitions; In "Questions of applied mathematics", Siberian Inst. of Energy, Irkutsk (1977) 20-30 (in Russian); RJ Abstract 81b:90172 in English, V. Gurvich and A. Vasin.

(10) 1978 Ga : Reconcilable sets of coalitions for normal form games. In "Numerical methods in optimization theory (Applied math.)", Siberian Inst. of Energy, Irkutsk, (1978) 27-38 (in Russian); RJ Abstract 81j:90147 in English; V. Gurvich and A. Vasin.

(11) 1978 Ga : On reconcilable sets of coalitions; 3-d USSR Conference on Operations Research, Gorky, 1978; Abstract, pp, 353-354 (in Russian); V.Gurvich and A. Vasin.

(12) 1978 Ga : Classification of meta-games. 3d USSR Conference in Operations Research, Gorky, 1978; Abstract, 396-397 (in Russian); V. Gurvich

(12a) 1978 Ga and B and Gr : Applications of Boolean functions and contact schemes in game theory. Ph.D. Thesis (and Extended Abstract); Moscow Institute of Physics and Technology, October 1978, 110 p. (and 11 p.) (in Russian); V.Gurvich

(14) 1980 Ga : Coalitional equilibria in meta-games, Vestnik Moskov. Univ. ser.XV : Vychisl. Mat. Kibernet., no 3 (1980) 38-44 (in Russian), 90D12; English translation in: Proceedings of Moscow State Univ. Ser. XV, Computational Math. and Cybernetics, no 3; V.A. Gurvich and A.A. Vasin.

(15) 1982 S : Time stability of strong earthquake-prone areas prediction. II. East of Middle Asia. Izvestiya Akad. Nauk SSSR, ser. Fizika Zemli , No 9, p.30-38. (Russian), English transl. in Izvestya Acad. of Sciences of the USSR, ser. Physics of Solid Earth; V. Gurvich and A. Gvishiani.

(16) 1982 S and O : Balls in the Hamming metric spaces. Doklady Akad. Nauk SSSR, v.264, No 1, p.27-29 (in Russian); 86A15 (54E35); English transl. in: Soviet Math. Dokl., 25, (3) (1982), 569–571; V. Gurvich and A. Gvishiani.

(17) 1982 Ga and B and Gr : On the normal form of positional games, Doklady Akad. Nauk SSSR, 264 (1) (1980) 30–33 (in Russian); English transl. in Soviet Math Dokl., 25 (3) (1982) 572–575; V.Gurvich.

(18) 1983 Ga and B and S : Dual systems of sets and their applications; Izv. Akad. Nauk SSSR Tekhn. Kibernet, 4 (1983)31–39 (in Russian); English translation in: Engineering Cybernetics 21 (3) (1984) 112–118; V.A. Gurvich and A.D. Gvishiani.

(19) 1983 S : On representation of morphostructural lineaments for computer processing. Vychisl. Seismologiya v.15 , Moscow, "Nauka" (Russian), English transl. in Computational Seismology, V.A. Gurvich, A.Z. Mostinsky, A.A. Soloviev, and I.A. Vesselov.

(20) 1984 CP : Balanced flow in multipole networks, Doklady Akad. Nauk SSSR, 275 (6) (1984), 1327-1331 (in Russian) 90B10 (05C20), English transl. in: Soviet Phys. Dokl., **29** (4) (1984) 268–270, V. Gurvich and A. Gvishiani.

(21) 1984 CP : Kirchhoff's second law for optimal transport flows, Doklady Akad. Nauk SSSR, 276 (4) (1984), 812-817 (in Russian), 94C15 (90B10 94C05); English translation in: Soviet Phys. Dokl., **29** (1984) MR0754097 (85k:94065); V. Gurvich.

(22) 1984 S : Dynamic problems of pattern recognition. I. Stability conditions for the strong earthquake-prone areas prediction. Vychisl. Seismol., 16 (1984) 70-78, Moscow, "Nauka" Publishers (in Russian); English transl. in Computational Seismology, V. Gurvich and A. Gvishiani.

(23) 1984 S : On the connection of volcanic activity and altitute difference with epicenters of strong earthquakes; Vychisl. Seismologiya 16 (1984) 88-93, Moscow, "Nauka" (in Russian), English transl. in Computational Seismology; V. Gurvich and V. Kossobokov.

(24) 1984 S : Dynamic problems of pattern recognition. II. Stabilizing sets and local stability for the strong earthquake-prone areas prediction . Vychisl. Seismologiya v.17, p.29-35 , Moscow, "Nauka" (in Russian), English transl. in Computational Seismology, V. Gurvich and A. Gvishiani.

(25) 1984 S : Determination of earthquake-prone areas by pattern recognition methods; 19th Assembly of European Seismology Commission, 1984, Abstract, pp. 7-8 (in Russian); V. Gurvich and A. Gvishiani.

(26) 1984 Gr and Ga and B : Some properties and applications of complete edge-chromatic graphs and hypergraphs; Doklady Akad. Nauk SSSR, 279 (6) 1306–1310 (in Russian) 05C15 (03G05 05C65 06E30); English transl. in: Soviet Math. Dokl. **30** (3) (1984) 803–807; V. Gurvich

(27) 1985 : Problem M 940* . High-school Journal "Kvant", 1985, p.40 (in Russian), V.A. Gurvich and A.I. Gol'berg.

(28) 1985 S : Dynamic problems of pattern recognition. III. Stability for the prediction of possible places of strongest earthquake-prone areas of Pacific Belt; Vychisl. Seismologiya 18 (1985) 117-127, Moscow, "Nauka" (in Russian), English transl. in Computational Seismology, V.A. Gurvich, A.D. Gvishiani, and A.L. Razsvetaev.

(29) 1986 CP : Calculation of networks and dual problems of convex programming; Dokl. Akad. Nauk SSSR 287 (5) (1986) 1062–1067 (in Russian), 90C35; English translation in: Soviet Math. Dokl., 33 (2) (1986) 491–496; I.F. Obraztsov, A.D. Gvishiani, and V.A. Gurvich.

(30) 1986 Ga : Stability of collective choice, VINITI (Ins. Sci. and Engin. Inform.) Microfilm 3181-B86, 31 pp. (in Russian),

English transl. by I.R. Antonyan; Sincere and stable social choice (manuscript), A.I. Golberg, V.A. Gurvich, and M.N. Zhizhin.

(31) 1986 Ga : Collective choice based on veto principle; VINITI (Ins. Sci. and Engin. Inform.) Microfilm 3182-B86, 127 pp. (in Russian); English transl. by I.R. Antonyan and M.N. Zhizhin, Extensive and secret dominance solvable veto voting schemes, (manuscript), A.I. Golberg, V.A. Gurvich, and M.N. Zhizhin.

(32) 1986 CP : On the theory of monotone schemes; Doklady Akad. Nauk SSSR 289 (4) (1986) 796–800 (in Russian), English transl. in Soviet Math. Dokl. 34 (1)(1986) 162–166; I.F. Obraztsov, A.D. Gvishiani, and V.A. Gurvich.

(33) 1986 Ga : The existence of non-trivial stable social choice functions; Doklady Akad. Nauk SSSR, 289 (4) (1986) 788–792 (in Russian) 90A07; English translation in: Soviet Math. Dokl., 34 (1) (1986) 154–158; A.I. Golberg, V.A. Gurvich, and I.S. Menshikov.

(34) 1986 Gr : On the maximal number of edges for a graph with n vertices in which every subgraph with k vertices has at most ℓ edges; Doklady Akad. Nauk SSSR 293 (1) (1987), 27–32 (in Russian); English translation in : Soviet Math. Dokl. 35 (2) (1987) 255–260; A. Golberg and V. Gurvich.

(35) 1986 S : Identification of doubles in the union of earthquake catalogs. In "Math. methods for geophysical information processing". Eds. V.F. Pisarenko, V.V. Ratuschnyi. Moscow, Nauka (in Russian), V. Gurvich and P.N. Schebalin.

(36) 1987 Ga : Dominance-solvability conditions for concave n -person games, Uspehi Mat. Nauk 42 (2) (1987) 183–184 (in Russian), English transl. in Russian Mathematical Surveys, A.I. Golberg, V.A. Gurvich, K.M. Khanin, and M.U. Rosenblum.

(37) 1987 CP and S : Calculation of Lithosphere Block's equilibrium by convex programming methods. 19-th General Assembly IUGG (International Union of Geodesy and Geophysics) Vancouver, Canada, Aug. 9–22, Report, Abstract v.1 , p.39. V. Gurvich and A. Gvishiani.

(38) 1987 CP : Metric and ultrametric resistance spaces; Uspehi Mat. Nauk 42 (6, 258) (1987) 187–188 (in Russian), 90B10 (94C10); English transl. in: Russian Mathematical Surveys 42 (2) (1987) 183–184; V. Gurvich and A. Gvishiani.

[This result is attributed by Wikipedia and Wolfram Mathematics to D.J. Klein and M.J. Randic, J. Math. Chem., Resistance distance 12 (1993) 81–95.]

(39) 1987 CP : The equivalence of networks, optimal flows, and static equilibrium computational problems; Uspehi Mat. Nauk 42 (6, 258) (1987) 191–192 (in Russian); English transl. in Russian Math. Surveys 42 (2) (1988) 187–188; V. Gurvich and A. Gvishiani.

(40) 1987 Gr : Extremal homogeneous hypergraphs and a hypercombinatorial function; Doklady Akad. Nauk SSSR 298 (4) (1988) 793–798 (in Russian); English transl. in Soviet Math. Dokl 37 (1) (1988) 146–151; V. Gurvich.

(41) 1988 Gr : A problem in theory of extremal graphs and its applications; Izvestiya Akad. Nauk SSSR, Tekh. Kibernetika 1 (1988) 106-116 (in Russian); English translation in Soviet J. of Computer and System Science (formerly Engineering Cybernetics) 3 (1990) 1-9; A. Gol'berg and V. Gurvich.

(42) 1988 Ga : A stochastic game with complete information and without equilibrium situations in pure stationary strategies; Uspehi Mat. Nauk 43 (2, 260) (1988) 135-136 (in Russian); 90D15 (90D10); English translation in : Russian Mathematical Surveys 43 (2) (1988), 171-172; V.Gurvich.

(43) 1988 CP and S : Layered block model in problems of lithosphere dynamics and of earthquake engineering; USSR conf. "Engineering seismology problems", Leninakan, May 15-22, Report, Abstract p.106-107 (in Russian), V.A. Gurvich, A.D. Gvishiani (speaker), and A.G. Tumarkin.

(44) 1988 CP and S : Layered block model in problems of rock mechanics; USSR seminar "Principles of rock destruction prediction." Irkutsk, September, Report, Abstract p.100-101 (in Russian), V.A. Gurvich, A.D. Gvishiani (speaker), and A.G. Tumarkin.

(45) 1988 Gr : Extremal uniform hypergraphs; an estimate of the Zarankiewicz function and a criterion for the non-degeneracy of the function ex ; Doklady Akad. Nauk SSSR 303 (3) (1988) 538-542 (in Russian); English transl. in Soviet Math. Dokl. 38 (3) (1989) 550-554; V. Gurvich.

(46) 1988 Ga : Equilibrium in pure strategies. Doklady Akad. Nauk SSSR 303 (4) (1988) 538-542 (in Russian); English transl. in Soviet Math. Dokl. 38 (3) (1989) 597-602; V. Gurvich.

(47) 1988 Ga and Gr and CC : Cyclic games and an algorithm to find minimax cycle means in directed graphs; J. Vychisl. matem. i matem. fiz. 28:9 (1988) 1407-1417 (in Russian); English transl. in USSR Comput. Math. and Math. Phys. 28 (5) (1990) 85-91; V.A. Gurvich, A.V. Karzanov, and L.G. Khachiyan.

(48) 1989 Ga and Gr and CC: A criterion and verification of the ergodicity for cyclic game forms; Uspehi Mat. Nauk 44 (1, 265) (1989) 193-194. (in Russian), English transl. in Russian Mathematical Surveys 44 (1) (1989) 243-244; V. Gurvich and V. Lebedev.

(49) 1988 CP and S : Layered block model in problems of slow deformations of the lithosphere and of earthquake engineering; In "Slow deformations and transmission of stress in the Earth"; Eds. S.C. Cohen, P. Vanicsek, American Geophysical Union, Washington, Geophysical Monograph 49, IUGG 4 (1988) 65-71; V.A. Gurvich, A.D. Gvishiani, and A.G. Tumarkin.

(50) 1988 CP and S : Calculation of lithospheric blocks and of engineering constructions equilibrium by convex programming methods; Vychisl. Seismologiya v.21, 1988, p.74-94, Moscow, "Nauka" (in Russian), English transl. in Computational Seismology, V.A. Gurvich and A.D. Gvishiani.

(51) 1989 CP and S : Block modelling of lithosphere dynamics: a convex analysis approach; European Geophysical Society, Annales Geophysicae, 14th General Assembly, Barcelona, March, Abstract, Report, 1989, p.100-101, V.A. Gurvich, A.D. Gvishiani, and A.G. Tumarkin.

(52) 1989 Ga : Institutions of agreement; "Znanie; Novoe v zhizni, nauke i tekhnike", ser. Matematika i Kibernetika, 6 (1989) 42 p. (Knowledge, News in life science and technics. Math. and Cybernetics. (in Russian); V. Gurvich and I. Menschikov.

(53) 1989 Gr and T : Charts of surfaces and their schemes; Doklady Akad. Nauk SSSR, 305 (6) (1989) 1298-1303 (in Russian), English transl. in Soviet Math. Dokl. 39 (2) (1989) 390-394; V.A. Gurvich and G.B. Shabat.

[This result was obtained much earlier by Jack Edmonds: On the Surface Duality of Linear Graphs, J. Res. Natl. Bur. Stand. 69B (1965) 121-123.]

(54) 1989 CP : Elementary vectors in separable convex programming; Doklady Akad. Nauk SSSR 307 (5) (1989) 1059-1064 (in Russian), English transl. in Soviet Math. Dokl. v.40, No 1, 1989, p.207-212; I.F. Obraztsov, A.D. Gvishiani, and V.A. Gurvich.

(55) 1989 Ga : Some properties of effectivity functions, Doklady Akad. Nauk SSSR 307 (6) (1989) 1311-1317 (in Russian); English transl. in Soviet Math. Dokl. 40 (1) (1990) 244-250; V. Gurvich.

(56) 1989 Ga and L : Quasilinear set-functions and absolutely determined matrices, Avtomatika i Telemekhanika 12 (1989) 113-117 (in Russian); English transl. in Automation and Remote Control; V. Gurvich and L. Libkin.

(57) 1990 CP : Computation of schemes by Rudder and Ladder algorithms, Doklady Akad. Nauk SSSR 314 (6) (1990) 1316-1321 (in Russian); English transl. in Soviet Math. Dokl. 41 (92) (1990) 651-657; I.F. Obraztsov, A.D. Gvishiani, and V. Gurvich.

(58) 1990 Ga : A saddle point in pure strategies; Doklady Akad. Nauk SSSR 314 (3) (1990) 542-546; English transl. in Soviet Math. Dokl. 42 (2) (1990) 497-501; V. Gurvich.

(59) 1990 Ga and L : Absolutely determined matrices; Mathematical Social Sciences 20 (1990) 1-18; V. Gurvich and L. Libkin.

(60) 1990 Ga : A theorem on the existence of equilibrium situations in pure stationary strategies for ergodic extensions of $(2 \times k)$ bimatrix games; Uspehi Mat. Nauk. 45 (4, 274) (1990) 151-152; English transl. in Russian Mathematical Surveys, 45 (4) (1990) 170-172; V. Gurvich.

(61) 1990 CP : Conditions of the existence and uniqueness for the solution of a convex programming problem; Uspehi Mat. Nauk 45 (4, 274) (1990) 145-146 (in Russian); English translation in Russian Mathematical Surveys 45 (4) (1990) 173-174; V.A. Gurvich and A.D. Gvishiani.

- (62) 1990 CP and S : Equations of dynamics for the layer block model; Vychisl. Seismologiya 22 (1990) 111-116, Moscow, "Nauka" (in Russian); English transl. in Computational Seismology; V. Gurvich and A. Gvishiani.
- (63) 1990 Ga and B : Nash-solvable game forms, The fifth international conference on the foundation and applications of utility, risk, and decision theories, June 9-13, 1990; Duke University, Durham NC, Abstract; V. Gurvich.
- (64) 1990 Ga and B : Dual cores and effectivity functions; International conference on game theory and economic applications, Dec. 18-22, 1990; Indian Statistical Institute, New-Delhi, Abstract, pp. 134-135; V. Gurvich.
- (65) 1991 P** : A Gaussian distribution for sums of distances, Doklady Akad. Nauk SSSR 316 (2) (1991) 279-284 (in Russian); English translation in Russian Acad. Sci. Dokl. Math. 43 (1) (1991) 63-68; V.A. Gurvich and K.M. Khanin.
- (66) 1991 P**: A Poisson distribution for the number of pairs of close points; Doklady Akad. Nauk SSSR 316 (3) (1991) 533-538 (in Russian); English translation in Russian Acad. Sci. Dokl. Math. 43 (1) (1991) 122-127; V.A Gurvich and K.M. Khanin.
- (67) 1991 B** : Criteria for repetition freeness of functions in the algebra of logic; Doklady Akad. Nauk SSSR 318 (3) (1991) 532-537 (in Russian); English translation in Russian Acad. Sci. Dokl. Math. 43 (3) (1991) 721-726; V. Gurvich.
- (68) 1991 Ga and L : Quasi-convex analysis for semi-lattices and absolutely determined matrices; Doklady Akad. Nauk SSSR 319 (1) (1991) 27-32 (in Russian); English translation in Russian Acad. Sci. Dokl. Math. 44 (1) (1992) 20-25; V.A Gurvich and L.O. Libkin.
- (69) 1991 Ga** : Some properties of tight cyclic game forms; Dokl. Akad. Nauk. 318 (6) (1991) 1289-1294 (in Russian); English translation in Soviet. Math Dokl., 43 (3) (1991) 898 - 903; A. Gol'berg and V. Gurvich.
- (70) 1991 Ga and B** : Tight cyclic game forms; Uspehi Mat. Nauk 46 (2, 278) (1991) 211-212 (in Russian); English translation in Russian Mathematical Surveys, 46 (2) (1991) 241-242; A.I.Gol'berg and V.A. Gurvich.
- (71) 1992 Ga and B : Information extensions of game forms; Doklady Akad. Nauk 322 (3) (1992) 451-455 (in Russian); English translation in Russian Acad. Sci. Dokl. Math. 45 (1) (1992) 110-114; V. Gurvich.
- (72) 1992 Ga and Gr : Positional game forms and chromatic graphs; Doklady Akad. Nauk 322 (5) (1992) 828-831 (in Russian); English translation in Russian Acad. Sci. Dokl. Math. 45 (1) (1992) 168-172; V. Gurvich.

(73) 1992 Ga and B : Algebraic properties of effectivity functions;
Doklady Akad. Nauk. 323 (1) (1992) 19-24 (in Russian);
English translation in Russian Acad. Sci. Dokl. Math. 45 (2) (1992) 245-251;
V. Gurvich.

(74) 1992 Ga : A tightness criterion for reciprocal bipartite cyclic game forms, Doklady Akad. Nauk 323 (3) (1992) 398-405 (in Russian);
English translation in Russian Acad. Sci. Dokl. Math. 45 (2) (1992) 348-354;
A.I. Gol'berg and V.A. Gurvich.

(75) 1992 Gr : Bilinear forms of enumerated graphs,
Doklady Akad. Nauk 325 (2) (1992) 221-226 (in Russian);
English translation in Russian Acad. Sci. Dokl. Math. 46 (1) (1993) 36-42;
V.Gurvich.

(76) 1992 Gr : Enumerated graphs and their bilinear forms;
Uspehi Mat. Nauk 47 (4, 286) (1992) 189-190 (in Russian);
English transl. in Russian Mathematical Surveys 47 (4) (1992) 206-207;
V.Gurvich.

(77) 1992 Gr : Checked perfect graphs;
Doklady Akad. Nauk 326 (2) (1992) 227-232 (in Russian);
English translation in Russian Acad. Sci. Dokl. Math. 46 (2) (1993) 248-253;
V.A. Gurvich and M.A. Temkin.

(78) 1992 Ga : Effectivity functions and informational extensions of game forms and game correspondences;
Uspehi Mat. Nauk 47 (6, 288) (1992) 209-210 (in Russian);
English translation in Russian Mathematical Surveys 47 (6) (1992) 208-209;
V. Gurvich.

(79) 1993 Gr and O : Extremal integer sequences with forbidden sums,
Symp. on Appl. Math. Programming and Modelling. APMOD 93, Budapest, Hungary, Jan. 6-8, 1993, Extended Abstract, 247-256; V. Gurvich.

(80) 1993 Gr : Absolutely separated and biseparated graphs;
Dokl. Acad. Nauk 328 (4) (1993) 427-430 (in Russian);
English translation in Russian Acad. Sci. Dokl. Math. 47 (1) (1993) 97-103;
V. Gurvich.
[Main result was obtained earlier by V. Chvatal, W.J.Lenhart, and N.Sbihi: Two-colourings that decompose perfect graphs, J. Combin. Theory Ser. B 49 (1990), 1-9].

(81) 1993 Gr : Circular graphs without odd holes and anti-holes;
Dokl. Acad. Nauk 329 (4) (1993) 411-415 (in Russian);
English translation in Russian Acad. Sci. Dokl. Math. 47 (2) (1993) 278-284;
A.Gol'berg, V. Gurvich, A. Shapovalov, A. Temkin, and V. Udalov.

(82) 1993 Gr : Cyclic bilinear forms of enumerated graphs;
Dokl. Acad. Nauk 331 (1) (1993) 11-13 (in Russian);
English translation in Russian Acad. Sci. Dokl. Math. 48 (1) (1994) 10-14;
V. Gurvich.

- (83) 1993 Gr :
 Berge's Strong Perfect Graph Conjecture is true for rotatable graphs;
 Dokl. Acad. Nauk, 332 (2) (1993) 144-148 (in Russian);
 English transl. in Russian Acad. Sci. Dokl. Math. 48 (2) (1994) 271-278;
 V.Gurvich and A.Temkin.
- (84) 1993 Gr : Biseperated graphs are perfect;
 Dokl. Acad. Nauk 331 (5) (1993) 541-545 (in Russian);

III. Extended Abstracts, 2000+

(1) 2000 CC : Finding all minimal feasible solutions, to a monotone system of linear inequalities. *INFORMS 2000*, San Antonio November 5-8, 2000; E.Boros (invited speaker), V.Gurvich, L.Khachiyan and K.Makino.

- (2) 2000 CC : Finding all minimal feasible solutions of a monotone system of inequalities, 2-nd Bonn workshop on discrete optimization, Sept.4-8, 2000; E. Boros (invited speaker), V.Gurvich, L.Khachiyan and K.Makino.
- (3) 2000 Gr : 2-difference graphs, International Conferemce on Graph Theory (ICGT'2000), Marseille, Lumini, France, Aug.28 - Sept. 1, 2000; E.Boros (speaker), R. Collado, V.Gurvich, A.Kelmans, and R. Meshulam.
- (4) 2000 CC : Generating partial and multiple transversals of a hypergraph, Proceedings of the 17th International Symposium on Mathematical Programming (ISMP'2000), Atlanta, USA, August 7-11, 2000, E.Boros (speaker), V.Gurvich, L.Khachiyan and K.Makino.
- (5) 2000 CC : Dual-bounded monotone systems, EURO XVII, Budapest, Hungary, July 16-19, 2000; E.Boros (invited speaker), V.Gurvich, L.Khachiyan and K.Makino.
- (6) 2000 CC and B : Generating partial and multiple transversals of a hypergraph. The 27-th International Colloquium on Automata, Languages and Programming, ICALP, July 9-15, 2000,. Extended Abstract, Lecture Notes in Computer Science, 1853 (2000) 588-599, Montanari, J.D.P. Rolim, and E. Welzl, eds., Springer Verlag, Berlin, Heidelberg, New York, E.Boros (speaker), V.Gurvich, L.Khachiyan, and K.Makino.
- (7) 2000 CC : Dual-bounded Boolean functions, 3-d workshop on satisfiability, (SAT'2000), Renessee, The Netherlands, May 14-19, 2000; E.Boros (speaker), V.Gurvich, L.Khachiyan and K.Makino.
- (8) 2000 CC : Dualizing monotone Boolean functions, Proc. of the 17th International Symposium on Math. Programming (ISMP'2000), Atlanta, USA, 2000, p.152; E. Boros, V. Gurvich, L. Khachiyan, K. Makino (speaker).
- (9) 2000 CC : Dual-bounded hypergraphs: generating partial and multiple transversals, SIGAL73-6, Kyoto, Japan, Information Processing Society of Japan (2000) 35-42. E. Boros, V. Gurvich, L. Khachiyan, K. Makino (speaker).
- (10) 2001 CC and M: An inequality for polymatroid fuctions and its applications, Amerian Mathematical Society, Spring Eastern Section Meeting, Session on matchings in graphs and hypergraphs, Stevens Institute of Technology, Hoboken, NJ, April 28, 2001, E. Boros (invited speaker), Elbassioni, V. Gurvich, L. Khachiyan.
- (11) 2001 CC and M : Generating all minimal solutions of monotone systems: polymatroid separators. Plenary lecture at ECCO XIV, Bonn, Germany, May 30 - June 2 2001, E. Boros (speaker), K. Elbassioni, V. Gurvich, and L. Khachiyan.
- (12) 2001 CC : Polymatroid separators of hypergraphs. Conference on Hypergraphs (Gyula O.H. Katona is 60), in the Alfred Renyi Institute of Mathematics, Hungarian Academy of Sciences, Budapest, June, 7-9, 2001, Abstract, 12-13, E. Boros (invited speaker), K. Elbassioni, V. Gurvich, L. Khachiyan.

(12a) 2001 CC : Boolean functions and submodular separators. INFORMS International, Maui, Hawaii, June 17-20, 2001.

E. Boros (speaker), K. Elbassioni, V. Gurvich, L. Khachiyan, and K. Makino.

(14) 2001 CC and B : On generating all minimal integer solutions to systems of monotone linear inequalities, The 28-th International Colloquium on Automata, Languages, and Programming, ICALP, July 2001, Extended Abstract; Lecture Notes in Computer Science 2076 (2001) 92-103 (F. Orejas, P.G. Spitakis, and Jan van Leeuwen, eds., Springer Verlag, Berlin, Heidelberg, New York) E.Boros, V. Gurvich, K.Elbassioni (speaker), L.Khachiyan, and K.Makino.

(15) 2001 CC and M : Polymatroid inequalities and the generation of Sperner hypergraphs. Invited seminar talk, Waterloo University, Waterloo, Canada, June 27, 2001, E. Boros, K. Elbassioni, V. Gurvich, L. Khachiyan (invited speaker), and K. Makino.

(16) 2001 Ga and CC : Generating dual-bounded hypergraphs, Colloquium on Combinatorics, Geometry and Computation, European Graduate Program, Department of Computer Science, Swiss Federal Institute of Technology ETH, Zurich, June 11, 2001, E. Boros, Elbassioni, V. Gurvich, and L. Khachiyan (invited speaker)

(17) 2001 Ga and CC and M : An inequality for polymatroid function and its applications, Institute for Operations Research, Department of Mathematics, Ecole Polytechnique Federale de Lausanne, June 13, 2001, E. Boros, Elbassioni, V. Gurvich, and L. Khachiyan (invited speaker)

(18) 2001 Ga and CC : On Nash solvability in pure stationary strategies of positional games with perfect information which may have cycles, NATO Advanced Research Workshop on Mathematical Theory of Allocation of Discrete Resources: Equilibria, Matching, Mechanisms, December 16-19, 2001, Sabanci University of Istanbul, Turkey, E. Boros and V. Gurvich (invited speaker).

(19) 2002 DM and CC: On the complexity of generating maximal frequent and minimal infrequent sets in binary matrices, Proceedings of the 19-th Annual Symposium on Theoretical Aspects of Computer Science, STACS, Antibes-Juan Les Pins, France, March 14-16, 2002; Lecture Notes in Computer Science 2285 (2002) 133-141, (H. Alt and A. Ferreira, eds.), E. Boros, (speaker) V. Gurvich, L. Khachiyan, and K. Makino.

(20) 2002 DM and CC: Dual-bounded hypergraphs: a survey, Second SIAM International Conference on Data Mining, Workshop on Discrete Mathematics and Data Mining, April 11-13, 2002, Arlington, Virginia, USA, DM and DM, Extended Abstract, 87-98; E. Boros (speaker), V. Gurvich, L. Khachiyan, and K. Makino.

(21) 2002 DM and CC: Matroid Intersections, Polymatroid Inequalities and Related Problems, Proceedings of the 27th International Symposium on Mathematical Foundations of Computer Science, MFCS, Warsaw, Otwock, Poland, August 26-30, 2002, Lecture Notes in Computer Science 2420 (2002), 143-154 (K. Diks, W. Rytter Eds., Springer Verlag, Berlin, Heidelberg, New York), E. Boros, K. Elbassioni, V.Gurvich, and L. Khachiyan (speaker).

(22) 2002 DM and CC and M : Generating dual-bounded hypergraphs, The 1st International Conference on Optimization Methods and Software, Hangzhou, China, December 15-18, 2002, Extended Abstract; E. Boros, K. Elbassioni, V. Gurvich, and L. Khachiyan (invited speaker).

(23) 2003 DM and CC: An efficient implementation of a quasi-polynomial algorithm for generating hypergraph transversals, Proceedings of the 11-th Annual European Symposium on Algorithms, ESA, Budapest, Hungary, September 15-20, 2003, Extended Abstract, Lecture Notes in Computer Science (LNCS) 2832 (2003) 556–567, (G.D. Batista and Uri Zwick, eds.), Algorithms - ESA 2003, Springer Verlag, Berlin, Heidelberg, New York; E. Boros, K. Elbassioni, V. Gurvich (speaker), and L. Khachiyan.

(24) 2003 CC and B : An intersection inequality for discrete distributions and related generation problems, 30-th International Colloquium on Automata, Languages, and Programming, ICALP, Eindhoven, the Netherlands, June 30 - July 4, 2003, Lecture Notes in Computer Science (LNCS) 2719 (2003) 543–555, (J.C.M. Baeten, J.K. Lenstra, J. Parrow, and G.J. Woeginger, eds.), Springer Verlag, Berlin, Heidelberg, New York, E.Boros, K. Elbassioni (speaker), V.Gurvich, L.Khachiyan, and K.Makino.

(25) 2003 CC: On the complexity of generation: mini-survey, EURO/INFORMS 2003, Istanbul, 6-10 July, 2003, Abstract, E. Boros, K. Elbassioni, V. Gurvich (speaker), L. Khachiyan, and K. Makino.

(26) 2003 CC and M : Algorithms for Enumerating Circuits in Matroids, Algorithms and Computation, Proc. of 14-th Annual Internat. Symposium on Algorithms and Computation (ISAAC-2003), Kyoto, Japan, Dec. 15-17, 2003, Lecture Notes in Computer Science (LNCS) 2906 (2003) 485–494, (N. Katoh, T. Ibaraki, and H. Ono, eds.), Springer Verlag, Berlin, Heidelberg, New York; E. Boros, K. Elbassioni, V. Gurvich (speaker), and L. Khachiyan.

(27) 2003 CC : Monotone Dual-Bounded Properties, Theoretical Computer Science and Discrete Math. seminar, Inst. of Advanced Studies, Princeton, May 5, 2003, E. Boros, K. Elbassioni, V. Gurvich, and L. Khachiyan (speaker).

(28) 2004 CC and B and Gr : Generating maximal independent sets for hypergraphs with bounded edge-intersections, LATIN, 2004, Theoretical Informatics: 6-th Latin American Symposium, Buenos Aires, Argentina, April 5-8, 2004, Lecture Notes in Computer Science 2976 (2004) 488-498, (Martin Farach-Colton, ed.) Springer Verlag, Berlin, Heidelberg, New York; E.Boros, K. Elbassioni, V.Gurvich (speaker), and L.Khachiyan.

(29) 2004 CC and B and Gr : An efficient implementation of a joint generation algorithm, Experimental and Efficient Algorithms, 3-d International Workshop, WEA, Angra Dos Reis, Brazil, May 25-28, 2004, Lecture Notes in Computer Science 3059 (2004), 114-128; E.Boros (speaker), K. Elbassioni, V.Gurvich, and L.Khachiyan

(30) 2003 CC and B and Gr : On enumerating minimal dicuts and strongly connected subgraphs, RUTCOR Research Report 36-2003, Rutgers University, DIMACS technical report DTR-2003-35, Rutgers University,

Integer Programming and Combinatorial Optimization (IPCO), 10-th International Conference, June 7-11, 2004, Columbia University, New York City, NY, USA, Lecture Notes in Computer Science 3064 (2004), 152-162, (D. Bienstock and G. Nemhauser, eds), Springer Verlag, Berlin, Heidelberg, New York, E.Boros (speaker), K. Elbassioni, V.Gurvich, and L.Khachiyan

(31) 2004 CC and Ge: A stronger version of Barany's theorem in the plane; The Canadian Conference on Computational Geometry (CCCG); Concordia University, Montreal Canada, August 9-11, 2004; K. Elbassioni, A Elmasry (speaker), and V.Gurvich

(32) 2004 CC and B and Gr : Generating paths and cuts in multi-pole (di)graphs, 29th International Symposium of Math. Foundations of Computer Science (MFCS), Charles University, Prague, Czech Rep. August 22-27, 2004; Lecture Notes in Computer Science 3153 (2004), 298-309, (J. Fiala, V. Koubek, and J. Kratochvil eds.) Springer Verlag, Berlin, Heidelberg, New York; E.Boros, K. Elbassioni, V.Gurvich (speaker), L.Khachiyan, and K. Makino.

(33) 2004 CC and B and Gr : Algorithms for generating minimal blockers of perfect matchings in bipartite graphs and related problems; 12-th Annual European Symposium of Algorithms (ESA 2004); Bergen, Norway, September, 14-17, 2004, Lecture Notes in Computer Science 3221 (2004), 122-133, (Susanne Albers and Tomasz Radzik eds.) Springer Verlag, Berlin, Heidelberg, New York; E.Boros, K. Elbassioni, and V.Gurvich (speaker).

(34) 2004 CC and B and Gr : A global parallel algorithm for finding all minimal transversals of hypergraphs of bounded edge-size. RUTCOR Research Report RRR-38-2004, Rutgers University, ISAAC 2004, Hong Kong, China, E.Boros, K. Elbassioni (speaker), V.Gurvich, and L.Khachiyan.

(35) 2004 CC and B and Gr : Computing many maximal independent sets for a locally sparse hypergraph in parallel; RUTCOR Research Report RRR-38-2004 and Dimacs Technical Report, 2004-44, Rutgers University, SPAA 2005; E.Boros (speaker) , K.Elbassioni, V.Gurvich, and L.Khachiyan.

(36) 2005 CC and B : Generating all minimal integral solutions to monotone *wedge*, *vee*-systems of linear, transversal and polymatroid inequalities, RUTCOR Research Report RRR-41-2004, Rutgers University and DIMACS technical report DTR-2005-12, Rutgers University, Mathematical Foundations of Computer Science, 30th International Symposium, MFCS 2005, Gdansk, Poland, August 2005, LNCS 3618 (2005), 556-567; E.Boros, K. Elbassioni (speaker), V.Gurvich, and L.Khachiyan.

(37) 2005 CC : A new algorithm for the hypergraph transversal problem, Computing in Combinatorics, 11-th Annual International Conference, COCOON-2005, Cunming, China, August 16-19, 2005, Lecture Notes in Computer Science 3595 (2005) 767-776, (Lusheng Wang ed.) Springer Verlag, Berlin, Heidelberg, New York; L.Khachiyan, E.Boros, K. Elbassioni (speaker), and V.Gurvich.

(38) 2005 CC and Gr : Generating cut conjunctions and bridge avoiding extensions in graphs. Algorithms and Computation, 16th International Symposium, ISAAC 2005, Sanya, Hainan, China, December 2005, LNCS 3827, 156-165,

L. Khachiyan, E. Boros, K. Borys, K. Elbassioni, V. Gurvich and K. Makino (speaker).

(39) 2005 CC and Gr : Generating all vertices of a polyhedron is hard. INFORMS, San Francisco, November 12-16, 2005; L. Khachiyan, E. Boros, K. Borys, K. Elbassioni, V. Gurvich (speaker), and K. Makino.

(40) 2006 CC and Gr : Generating all vertices of a polyhedron is hard. Proceedings of the 17th annual ACM-SIAM symposium on Discrete Algorithms, SODA 2006, January 24-26, 2006, Miami, Extended abstract, 758-765, ACM Press, New York, NY, USA.

L. Khachiyan, E. Boros, K. Borys (speaker), K. Elbassioni, and V. Gurvich.

(41) 2006 Gr and CC : Extending Dijkstra's Algorithm to Maximize the Shortest Path by Node-wise limited Arc Interdiction, Computer Science, Theory and Applications: The First International Computer Science Symposium in Russia, CSR, St. Petersburg, Russia, June 8-12, 2006; Lecture Notes in Computer Science 3967 (2006) 221-234, (D. Grigoriev, J. Harrison, and E.A. Hirsch eds.) Springer Verlag, Berlin, Heidelberg, New York; L. Khachiyan, V. Gurvich (speaker), and J. Zhao.

(42) 2006 Gr and CC : Enumerating spanning and connected subsets in graphs and matroids, 14th Annual European Symposium in Algorithms (ESA, 2006), Zurich, Switzerland, September 11-13, 2006, Lecture Notes in Computer Science 4168 (2006) 444-455 (Yossi Azar and Thomas Erlebach eds.) Springer Verlag, Berlin, Heidelberg, New York; L. Khachiyan, E. Boros, K. Borys, K. Elbassioni, V. Gurvich, and K. Makino (speaker).

(43) 2007 Gr and CC : Generating minimal k -vertex-connected spanning subgraphs; COCOON, Canada, July 2007; Lecture Notes in Comp. Science 4598, 222-231 (P. Agarwal and S. Bereg, eds. Springer Verlag, Berlin, Heidelberg, New York); E.Boros, K.Borys, K.Elbassioni, V.Gurvich, K.Makino, and G.Rudolf (speaker).

(44) 2008 Ge and CC : Generating vertices of polyhedra and related problems of monotone generation, Workshop on polyhedral combinatorics, Centre de Recherches Mathematiques (CRM), Montreal, October, 2008; CRM Proceedings and Lecture Notes, Polyhedral Computations, 48 (2009) 15-44; D. Avis, D. Bremner, A. Deza, eds.; Special volume dedicated to Leonid Khachiyan and Victor Klee; Endre Boros (invited speaker), Khaled Elbassioni (invited speaker), Vladimir Gurvich (invited speaker), and Kazuhisa Makino.

(45) 2008 Ga and CC : Complete characterization of Nash-solvable bimatrix games in terms of excluding certain 2×2 subgames, LNCS 5010 (2008) 99-109, (E. Hirsh, A. Razborov, A. Semenov, and A. Slissenko eds.) Computer Science in Russia (CSR-08), Moscow, June 7-11, 2008; E. Boros, K. Elbassioni (speaker), V. Gurvich, K. Makino, and V. Oudalov.

(46) 2009 Ga and Gr : On Acyclicity of Games with Cycles; Algorithmic Aspects in Information and Management (AAIM); Lecture Notes in Computer

Science 5564 (2009) 15-28; D. Anderson, V. Gurvich, and T. Hansen (speaker).

(47) 2010 Ge and CC : Sperner Oiks,
International Symposium in Combinatorial Optimization (ISCO),
Hammamet, Tunisia, March 24-26, 2010; Electronic Notes in Discrete Math.
(ENDM) 36 (2010) 1273-1280, Proceedings of ISCO, section Oiks and Games;
Jack Edmonds (invited speaker), S. Gaubert, and V. Gurvich.

(48) 2010 Ge and CC : Scarf Oiks,
International Symposium in Combinatorial Optimization (ISCO),
Hammamet, Tunisia, March 24-26, 2010; Electronic Notes in Discrete Math.
(ENDM) 36 (2010) 1281-1288, Proceedings of ISCO, section Oiks and Games;
Jack Edmonds (invited speaker), S. Gaubert, and V. Gurvich.

(49) 2010 Ga : A Pumping Algorithm for Ergodic Stochastic Mean Payoff
Games with Perfect Information; The 14th International Conference Integer
Programming and Combinatorial Optimization (IPCO) Lausanne, Switzerland,
June 9-11, 2010, Proceedings, F. Eisenbrand and F.B. Shepherd eds.,
Lecture Notes in Computer Science, LNCS-6080 (2010) 341-354;
E. Boros (speaker), K. Elbassioni, Gurvich, and K. Makino.

(50) 2011 Ga : Stable families of coalitions for network resource allocation
problems, Fifth International Conference on Game Theory and Management,
GSOM; St. Petersburg University, Russia, June 27-29, 2011; in: Contribution
to Game Theory and Management, L. Petrosjan and N. Zenkevich (eds.);
volume IV, St. Petersburg University (2011) 223 - 230;
V. Gurvich and S. Schreider (speaker).

(51) 2011 Ga : (a) A two-parametrical extension of Wythoffs game and
minimum excludant function; a new recursion and polynomial algorithm of its
solution based on Perron-Frobenius' theorem and (b) Seki positions in Go;
Combinatorial Game Theory workshop; January 9 - 14, 2011, Banff, Canada;
V. Gurvich and V. Oudalov (speaker).

(52) 2011 Ga: Every stochastic game with perfect information admits a
canonical form; 2nd International ICST Conference on Game Theory for Net-
works, GameNets 2011; Shanghai, China, April 16-18, 2011;
E. Boros (speaker), K. Elbassioni, V. Gurvich, and K. Makino.

(53) 2011 Ga:
Stochastic Mean Payoff Games: Smoothed Analysis and Approximation Schemes;
38th International Colloquium on Automata, Languages and Programming (ICALP)
July 4-8, 2011, Zurich, Switzerland; ICALP: 1 (2011) 147-158;
E.Boros (speaker), K.Elbassioni, M.Fouz, V.Gurvich, K.Makino, and B.Manthey.

(54) 2012 Ga: On fair income allocation in acyclic network systems,
25th European Conference in Operational Research, 8- 11 July 2012,
Vilnius, Lithuania, EURO-2012, Conference Abstract;
Sergei Schreider (speaker) , Vladimir Gurvich, and Jonathan Plummer.
